

Datasheet

Mestic Solera cool box series

The Mestic MCC compressor cool boxes combine reliable cooling performance with smart connectivity in a practical, portable design. Thanks to powerful compressor technology, the MCC series cools and freezes independently of ambient temperature, keeping food and drinks perfectly chilled. Available in capacities from 18 to 50 litres, including a dual-zone model, there is an MCC cool box for every adventure.

Features

- **Available in multiple capacities:** Suitable for day trips, weekends away and extended travel
- **Powerful compressor cooling:** cools and freezes independently of ambient temperature.
- **Multiple compartments:** organized storage of food and drinks.
- **Interior LED light:** clear visibility of contents, even in low-light conditions.
- **Recessed carrying handles:** easy and comfortable transport.
- **12 V, 24 V and 230 V compatibility:** Easy connection in cars, campers, caravans and boats.

Control & connectivity

- **Integrated digital display:** easily monitor and adjust temperature settings directly on the cool box.
- **Battery protection system:** protects the vehicle battery against excessive discharge.
- **Max & ECO operating modes:** Choose between maximum cooling performance or optimized energy consumption.
- **Mestic smart app:** Switch the cool box on or off, adjust temperatures and monitor performance from your smartphone.

External Power Pack

Compatible with the Mestic External Power Pack (1512430): Enjoy up to 8 hours of cordless cooling, making it ideal for off-grid use at the beach, picnics, festivals and outdoor adventures.

Compressor cool box

- Compressor cooling technology
- Available in multiple capacities
- 12 V, 24 V and 230 V compatibility
- Mestic Smart App control (Bluetooth® & Wi-Fi)
- Digital LCD display
- USB charging port
- Interior LED light
- Drain plug
- Battery protection system
- Max & ECO modes
- Includes AC/DC adapter
- 2 year warranty

Works seamlessly with
the Mestic smart app
